**PARENT INITIAL \_\_\_\_\_**

**What to do when you or the coach feel that the child has suffered a concussion**

1. **Seek medical attention right away.** A health care professional can determine if a concussion occurred, how serious it is and when it's safe for your child to return to sports.
2. **Keep your child out of play.** Concussions take time to heal. **Don't let your child return to play until a health care professional says it's OK,** even if your child insists otherwise. Children who return to play too soon – while the brain is still healing – risk a greater chance of having a second concussion. Second or later concussions can be extremely serious. They can cause permanent brain damage, affecting your child for a lifetime.
3. **Tell your child's coach about any recent concussion.** Coaches should know if your child had a recent concussion in ANY sport. The coach may not know about a previous concussion, and there could be serious health risks for your child.
